Art Unit: 1711

1. Claims 23-44 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Firstly, it is unclear if the phrase, "in organic solution", is equivalent to requiring the polyurethane to be dissolved in an organic solvent. It is unclear if the phrase encompasses aqueous solutions (Claims 31 and 32 provide for the use of reactants containing hydrophilic groups).

Secondly, within line 14 of claim 1, alkoxysilane has been misspelled.

Lastly, it is unclear how to interpret applicants' response with respect to the issue of components a) and c) not being mutually exclusive when they have an overlapping molecular weight, in the case of the claims wherein the components are not limited by weight percent limitations.
